

Claire Richardson

GB Under 18s Team Administrator

My Dragon Boating Background

I began dragon boating in 2006 when I competed in a local charity event in Southport with the team 'two fast to furious' which we won! I then joined Amathus DBC in the September and competed in the National League events for the following three years until I relocated to Scotland. Since then I have competed in a few of the league races and the National cup with Crusaders dragon boat club

My GB Dragon boating background

I first attended a World Championships in Australia 2007 as a spectator. I then attended the European Championships in Italy as an adult helper for the squad and assisting the Manager at that time. When Matthew Richardson and Peter Richardson were appointed the Coach and Manager roles I became the assistant manager for Prague 2009, Amsterdam 2010 and Tampa Bay 2011. I was appointed as the Team Administrator in September 2011 and am looking forward to an exciting year ahead and the European Championships in Nottingham 2012!

My Roles and Responsibilities

As team administrator I will make the necessary arrangements to organise training weekend for the squad in collaboration with the coach and communicate the details with the paddlers and parents via email. I am also in charge of booking everything required for the European Championships including the accommodation, food, transport and all the administration. I also manage the accounts for the BNTS and GB squad which get audited by the BDA at the end of the season.
